

As a resident of the local community, I listen to Airl not only for personal enjoyment, but as a source for encouragement and positive living. The type of music that is played is especially great for the youth in our area, giving them a place to listen to modern music that is free from foul language and explicit sexual comments. If Airl was to be displaced it would be a huge loss to the families in the area that listen. The service provided by Airl is in the public interest, and I ask that you keep it free from interruption.
